

Q15 — Database Restore – Restore collegeDB from college_backup.sql

*Note: This is an OS terminal command. It is NOT run inside Oracle SQL*Plus.*

```
mysql -u root -p -e "CREATE DATABASE collegeDB;"
```

```
mysql -u root -p collegeDB < college_backup.sql
```

```
impdp system/password DIRECTORY=DATA_PUMP_DIR  
DUMPFILE=collegeDB.dmp SCHEMAS=collegeDB LOGFILE=import.log
```

Expected Output:

```
Enter password: *****
```

```
(No error = database created)
```

```
Enter password: *****
```

```
(No error = restore successful)
```

```
All tables and data restored into collegeDB.
```

```
Import: Release 19.0.0.0.0
```

```
Connected to: Oracle Database 19c
```

```
Starting "SYSTEM"."SYS_IMPORT_SCHEMA_01":
```

```
Processing object type SCHEMA_EXPORT/TABLE/TABLE
```

```
Processing object type SCHEMA_EXPORT/TABLE/TABLE_DATA
```

```
Job "SYSTEM"."SYS_IMPORT_SCHEMA_01" completed successfully.
