

Q16 — Procedure – Check Whether a Number is Even or Odd

```
CREATE OR REPLACE PROCEDURE check_even_odd (num IN NUMBER) AS
BEGIN
    IF MOD(num, 2) = 0 THEN
        DBMS_OUTPUT.PUT_LINE(num || ' is EVEN');
    ELSE
        DBMS_OUTPUT.PUT_LINE(num || ' is ODD');
    END IF;
END;
/
```

```
SET SERVEROUTPUT ON;
```

```
EXEC check_even_odd(7);
EXEC check_even_odd(12);
EXEC check_even_odd(0);
```

Expected Output:

```
Procedure created.
```

```
7 is ODD
```

```
PL/SQL procedure successfully completed.
```

```
12 is EVEN
```

```
PL/SQL procedure successfully completed.
```

```
0 is EVEN
```

```
PL/SQL procedure successfully completed.
```
