

Q18 — Function – Calculate the Square of a Number

```
CREATE OR REPLACE FUNCTION calc_square (n IN NUMBER)
RETURN NUMBER AS
BEGIN
    RETURN n * n;
END;
/

SET SERVEROUTPUT ON;

DECLARE
    result NUMBER;
BEGIN
    result := calc_square(7);
    DBMS_OUTPUT.PUT_LINE('Square of 7 = ' || result);

    result := calc_square(12);
    DBMS_OUTPUT.PUT_LINE('Square of 12 = ' || result);
END;
/
```

Expected Output:

Function created.

Square of 7 = 49

Square of 12 = 144
