

Q1 — Create CollegeDB – Student Table with Primary Key

*Note: Oracle SQL*Plus does not use CREATE DATABASE. We work within the connected schema directly.*

```
CREATE TABLE Student (  
    StudentID  NUMBER(5)    PRIMARY KEY,  
    Name       VARCHAR2(50) NOT NULL,  
    Age        NUMBER(3),  
    Course     VARCHAR2(50)  
);  
  
INSERT INTO Student VALUES (1, 'Rahul Sharma', 21, 'CSE-AI');  
INSERT INTO Student VALUES (2, 'Priya Patil', 20, 'CSE-AI');  
INSERT INTO Student VALUES (3, 'Amit Deshmukh', 22, 'CSE-AI');  
  
COMMIT;  
  
SELECT * FROM Student;
```

Expected Output:

Table created.

1 row created.

1 row created.

1 row created.

Commit complete.

STUDENTID	NAME	AGE	COURSE
1	Rahul Sharma	21	CSE-AI
2	Priya Patil	20	CSE-AI
3	Amit Deshmukh	22	CSE-AI

3 rows selected.
