

Q22 — Student Table – Find Maximum and Minimum Marks

```
CREATE TABLE Student (
    StudentID NUMBER(5) PRIMARY KEY,
    Name       VARCHAR2(50) NOT NULL,
    Marks      NUMBER(3)
);

INSERT INTO Student VALUES (1, 'Rahul', 85);
INSERT INTO Student VALUES (2, 'Priya', 92);
INSERT INTO Student VALUES (3, 'Amit', 67);
INSERT INTO Student VALUES (4, 'Sneha', 74);
INSERT INTO Student VALUES (5, 'Kiran', 55);
```

```
COMMIT;
```

```
SELECT MAX(Marks) AS Maximum_Marks,
       MIN(Marks) AS Minimum_Marks
FROM Student;
```

```
SELECT Name, Marks FROM Student WHERE Marks = (SELECT MAX(Marks) FROM Student);
SELECT Name, Marks FROM Student WHERE Marks = (SELECT MIN(Marks) FROM Student);
```

Expected Output:

```
Table created.
```

```
1 row created. (x5)
```

```
Commit complete.
```

```
MAXIMUM_MARKS  MINIMUM_MARKS
-----
                92                55
```

```
1 row selected.
```

```
NAME  MARKS
-----
Priya    92
```

```
1 row selected.
```

```
NAME  MARKS
-----
Kiran    55
```

```
1 row selected.
```
