

Q5 — Sales Table – Calculate Total Sales Amount

```
CREATE TABLE Sales (  
    SaleID      NUMBER(5)      PRIMARY KEY,  
    ProductName VARCHAR2(100) NOT NULL,  
    Amount      NUMBER(10,2)  
);  
  
INSERT INTO Sales VALUES (1, 'Laptop',      55000);  
INSERT INTO Sales VALUES (2, 'Mobile',      20000);  
INSERT INTO Sales VALUES (3, 'Tablet',      30000);  
INSERT INTO Sales VALUES (4, 'Headphones',  5000);  
  
COMMIT;  
  
SELECT SUM(Amount) AS Total_Sales_Amount  
FROM Sales;
```

Expected Output:

Table created.

1 row created. (x4)

Commit complete.

```
TOTAL_SALES_AMOUNT  
-----  
                110000
```

1 row selected.
